Examiner's Statement of Reasons for Allowance

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The present invention is directed to an interactive image display system for displaying a printed article as it will appear when printed, wherein an user can interact with the interactive system to provide text, font and layout information for the printed article, and obtain feedback by viewing what the final printed article looks like. Each independent claim identifies the uniquely distinct features of using the information provided by the user to create a single graphic description file, which is then used both for displaying a graphic image to the user, as well as for the batch printing process.

The closest prior art, Farros et al. (US 5,930,810) and Cheng et al. (US 6,012,070) which disclose a printing system using different files for the process of displaying an image to a user, and for the process of printing the final article, either singularly or in combination, fail to anticipate or render the above under lined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
